BS3	Chamfer / Depth Gauge 3" IPS
BS4	Chamfer / Depth Gauge 4" IPS

DESCRIPTION: -A chamfer tool with depth gage is a device that is used to chamfer the outside edge of the pipe. The chamfer allows the pipe end to easily enter the pipe heater face and easily enter the heated fitting. The depth gage is a device that is used to locate the rounding clamp a prescribed distance from the end of the pipe.

STANDARD SPECIFICATION: American National Standard ASTM 1056 | INCHES

MATERIAL: Aluminum body with a stainless-steel blade.

Available sizes: 1/2 in. CTS, 1/2 in. IPS, 3/4 in. IPS, 1 in. IPS, 1-1/4 in. IPS, 1-1/2 in. IPS, 2 in. IPS
